Structural Consultants LLC, a Registered Limited Liability Corporation specializing in Civil, Structural, and Transportation engineering has been recognized for innovative designs and a commitment to maintaining required budgets and schedules. Structural Consultants was first formed to service the needs of the clients in the southeastern United States but has since become a leader in the design of transportation systems and infrastructure across the country. The firm's ability to bring a wide range of professional expertise to a project, from structural engineering and infrastructure design to transportation planning and traffic engineering, has proven

valuable to clients who are involved in improving transportation infrastructure in both urban and rural environments.

Structural Consultants, LLC is a licensed engineering corporation and has available resources, licensed in all 50 states, Puerto Rico, and Canada, that can address all aspects of traffic engineering and transportation infrastructure design including:

- | | |
|---|---|
| Conventional Toll Plaza Automation Projects | Safety Studies |
| Open Road and All Electronic Tolling Projects | Traffic Signal System Design |
| Interstate Weigh Station By-Pass Systems | Highway Corridor Access and Demand |
| Speed Enforcement Camera Systems | Site Traffic Impact Analyses |
| Intersection / Interchange Traffic Operations and Signalization | Traffic Engineering Elements/Tasks of Environmental Documents |
| Red Light Enforcement Camera Systems | Feasibility Studies |
| Construction Administration / Project Management | |
